

Les remue-méninges de  
MaiCresseDesiles

Aide Méninge à résoudre ces énigmes mathématiques.

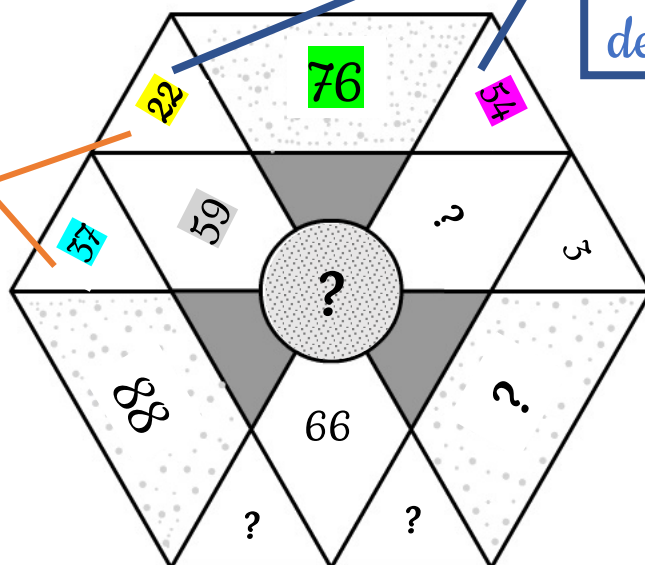

Observe chaque hexagone et trouve la relation mathématique qui lie les cases de nombre entre elles.

Trouve alors les nombres des cases manquantes afin de découvrir le nombre qui se cache derrière le rond central.

Voici un exemple :

**76** est égal à la somme (addition) des deux cases à côté de la sienne **22** + **54**

**59** est égal à la somme (addition) des deux cases au dessus de la sienne **22** + **37**

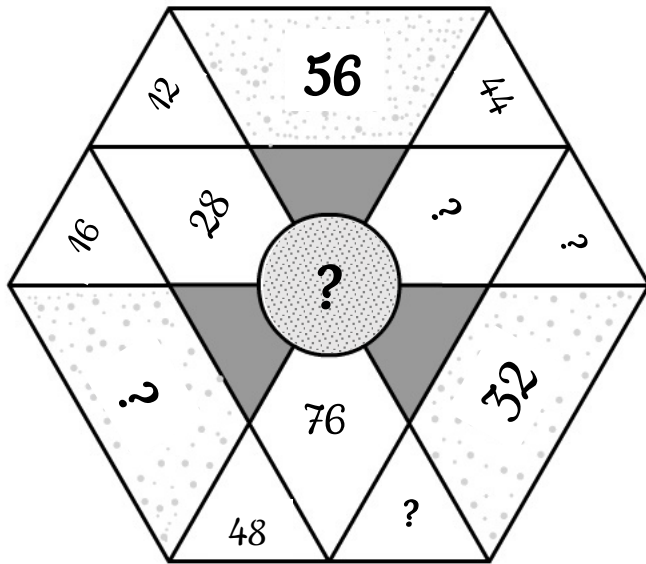

Remue-Méninges n°0

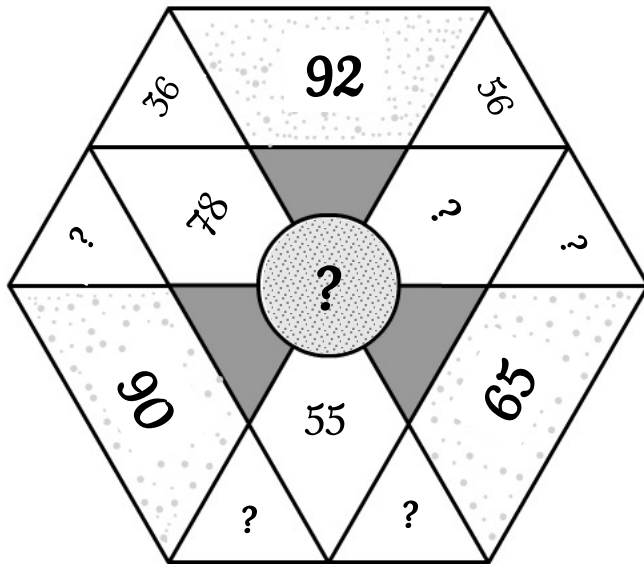

En sachant cela sauras-tu aider Méninge à trouver la solution du N°0 ? A toi de jouer !!! Et part à la découverte des remue-méninges de ce fichier.
